Mini Collection

Great designs just in time for your holiday projects!

Christmas Curls

This is a cute collection of Christmas designs that will look great on anything from a garment to a home decor project. This collection was designed specifically to be fast and easy to embroider. Each design is only one color and does not have any appliques or additional techniques in them. They are perfect for all of those last minute Christmas Gifts that you have been putting off! For our project we embroidered the designs on towels, which always make the perfect gift!
