

Southwestern Sand Art

29 Unique Designs

Full Collection

We released our "Southwestern" collection 5 years ago; it was one of the first ten releases that we created as Anita Goodesign. Over the years we've had many requests to create another Southwestern collection. We decided now was the time and we are proud to present "Southwestern Sand Art". Inspired by the beautiful art of the Native Americans our artist Ginny drew this collection. It contains a total of 45 designs with 29 unique designs. There are multiple jumbo designs that will look beautiful on any home decor or clothing item. For the collection projects we created three different pillows. Each pillow we created comes with the pattern we used. I hope you enjoy embroidering this beautiful collection.

This collection consists of 29 unique designs. Some designs comes in three sizes and others in two which gives you a total of 45 designs in this collection.
