

Victorian Monogram

123 Designs

Full Collection

The classic beauty of flowers and vines never go out of style. Match that with the dramatic Victorian style font and you have one of the most breathtaking combinations we've ever created. We have created many samples with this collection, including quilts and pillows cases using silks in soft pastel colors. Also we created an upscale velour towel set with a linen insert in matching colors, that can dress up any bathroom. Victorian Monogram is also one of our largest collections with a total of 123 designs. The designs cover an array of different hoop sizes. Included are four different alphabets, nineteen different frames and borders. The possibilities are endless!
