

Zen Garden

Full Collection 57 Designs

Zen Garden is a wonderful combination of flowers, Japanese Kanji symbols and Japanese crests. The designs when combined can create beautiful items for your home like wall hangings and pillows. There are 5 different types of crests, 12 different Kanji symbols and five different floral arrangements. We even include a stylized Koi fish! One of the projects we created for Zen garden is a beautiful wall hanging that uses new and interesting sewing techniques. We also created a beautiful pillow using those same techniques.
