

Christmas Fringe

24 Designs Total

Mini Collection

We are creating something new for Christmas this year, fringe embroidery! It has been a long time since I've designed a fringe design so we are bringing the technique back with a few twists. Instead of creating the fringe along the outside edges so it looks like grass this collection was designed so that the fringe part of the embroidery is on the inside creating a beautiful effect. The fringe is easy to create once the design is embroidered, you simple slit the thread down the middle using a seam ripper. There are 21 different fringe designs in this collection and they will look great on everything from home decor items to clothing.
