

Anita's Minis

60 Designs

Mini Collection

As all of you know almost all of our collections are designed for large format hoops. Instead of creating large designs for this collection we did the opposite, we created tiny ones! We designed 60 mini designs that all measure only 3/4" x 3/4". These designs are perfect to add to garments on collars or in between buttons. The following pages will show you examples on how we added these designs to garments, you can add 1 or multiple designs together.
