

Christmas Ribbons

12 unique
designs that
come in
three sizes.

Full Collection

The idea for this collection was to create Christmas ribbons that could be used individually or placed side by side for a larger project. We designed the collection using classic Christmas icons mixed with holly leaves intertwined around a ribbon. The end result is a collection of 12 beautiful designs. They are all unique and full of luxurious detail. Each design comes in three sizes. The smallest size is for the 5"x7" hoop, the medium size is for the 6"x10" hoop and the larger size is for the 7"x12" hoop. For our project we embroidered the designs on 3 different pillows. The instructions for the pillows and the design colors are included in the tutorial.
