

Letters To Santa

32 Designs

Full Collection

It is a tradition at Anita Goodesign to create a new tile scene every Christmas. This year is no exception and our newest tile scene is Letters to Santa. This is an 8 block tile scene that features a festive mailbox filled with letters. The mailbox is set against a beautiful picket fence background covered in holly with 2 regal cardinals perched on it. This is the perfect Christmas wall hanging for any household. Since the collection only has 8 blocks it is a very easy scene to assemble. Each block has applique in it to keep stitches to a minimum.

Letters To Santa

32 Designs total- Blocks Come in 6.8"x 10.8", 5.8"x 9.2", 4.8"x 7.8", and 4.2"x 6.7".

None of the fabric you see in the finished project is hooped. Instead we hoop muslin and use all of the visible fabric as applique. You will use half of the normal fabric to complete this project. The scene comes in 4 different sizes that go from a jumbo hoop to a 5"x 7" hoop. The following pages contain a complete tutorial that will explain everything you need to know including fabric usage, thread colors and everything in between. We hope you have a wonderful time embroidering this beautiful Christmas Scene.
