

Baby Giraffes

Baby Collection

24 Designs Total

This is another collection designed by our artist Rachel. She created 12 cute and comical giraffes. The designs come in two sizes to accommodate any of your projects ideas. These designs are perfect for any child's room. The project we created is a cuddly baby quilt with flannel. The giraffes are applique designs. There is an additional tutorial included on the CD-Rom called "Baby Tutorial" This tutorial demonstrates how to embroider applique designs, it also includes pattern and ideas for quilts, diaper bags, bumper pads and other baby projects. We wanted to give the completed project a bright look so we added the ribbon that resembles a measuring tape.

12 unique designs in two sizes.
