

# Daisies 2

32 Designs

## Mini Collection

We created our first daisy collection a few years ago and it was an instant bestseller. This is the first time we have revisited the daisy theme and we added a few new twists. There are jumbo designs with smaller daisy designs to go with it. For a twist, we created three giant Daisy appliqué designs and three giant running stitch designs. These designs are large and bold and look great when creating home decor items. Since the daisy is such a fun flower we decided to create three different types of projects. The first is a pair of jeans with the jumbo design and a few other daisies. The second two projects are pillows; the first pillow uses the running stitch designs and the large appliqué design. The second pillow uses just the jumbo appliqué design. I'm sure you will love to create beautiful spring projects with these daisies designs.
