

# Vintage Free-Standing Leaves

46 Designs Total

Mini Collection

This is a beautiful, yet simple vintage collection titled Free Standing Leaves. If you don't enjoy hooping large projects this is the perfect technique for you. All of the leaves are embroidered on organza, cut out and then applied to your project. This is a fun technique by itself, but to make it even more interesting we used lace fabrics as the appliqué for a vintage look! Our tutorial will teach you how to create freestanding appliqué designs and give you exciting project ideas as well.

Embroider directly  
on fabric or on organza to  
create free standing designs!
